## **Using Semicolons**

Because semicolons are little more than grammatical equal signs, it is useful to know the rudiments of grammar when placing them. If you cannot identify independent clauses within a sentence, you will have trouble with semicolons. In most cases, they are used to connect independent clauses that are not joined by coordinating conjunctions. Beyond suggesting that two clauses are closely related and grammatically equivalent, semicolons convey no meaning.

When using conjunctive adverbs to open a second independent clause – words such as <u>however</u>, <u>nevertheless</u>, <u>therefore</u>, and <u>accordingly</u> – a semicolon comes at the end of the first independent clause and before the conjunctive adverb; a comma follows the adverb.

## Examples with coordinating conjunctions

1. The walk around Lake Fred is always worthwhile, and it should be done at least once a week.

2. Rainy and cold periods may make the circuit less frequent, but it should be completed regularly.

3. Yesterday I saw a turtle making a nest, so I knew springtime was upon us.

# **Examples with semicolons**

1. The walk around Lake Fred is always worthwhile; it should be done at least once a week.

1

2. Rainy and cold periods may make the circuit less frequent; it should be completed regularly.

3. Yesterday I saw a turtle making a nest; I knew springtime was upon us.
