## Litt Bash

### Item 53 27-APR-2004 02:37 [Mary Emilie Steinacker \(steinacm\)](#)

HI All!! How was the great Litt Bash? I wish I could have been there, but I was there in spirit. I hope the turtle bars were an ok (goeey for sure) substitute for the trough delight but I was afraid to leave the whipped cream out for long. Hope to see you all soon! This has been another great semester! My ESL class was a much younger group and their enthusiasm to take risks was invigorating! Have a great summer!

With fond regards,

Mary Emilie Steinacker

The turtle bars were heavenly! I want the recipe (if you are willing to share your secrets:-) Glad to hear your class worked out so well.

Mary, I ended up with the bottom layer of the turtle bars in my car. Because they were so good, I left them there, figuring I would be less likely to eat them all if I had to walk out to the car to get them. Unfortunately, the walk to my car isn't far. I finished them on the Sunday morning after the bash with coffee. Just great.

The bash, too, was swell. I think we had our biggest crowd ever (between 60 and 70 at the peak) and the TRLC is a very set-up and break-down friendly place. Not having to scale stairs and make our way through numerous doors and down numerous hallways was truly delightful. We missed you, but, as I have indicated, loved your dessert.

See you soon, I hope.

Lisa
